Experience

Frontend Developer Intern

XIRCLS

July 2024 – Sept 2024

- Developed a **task manager** feature that integrated with the backend for assignment data processing.
- Implemented **pagination** for dynamic tables fetching data from the backend.
- Created a **review analytics** page with customizable review cards (color, font size, border radius, etc).
- Mapped data into a **Superleadz dashboard**, adding dynamic dropdowns for currency/number selection.
- Integrated **WhatsApp live chat** with infinite scroll and a private chat section for confidential conversations.

Frontend Developer Intern

Nipralo Technologies

Nov 2024 – Jan 2025

- Developed a full-fledged real estate website using HTML, Bootstrap CSS for styling, and PHP for logical reasoning, outperforming 30% of actively running real estate websites in terms of look and feel with a modern touch.
- Designed and developed a commercial e-commerce website for a chemical manufacturing and researching company, focusing on an optimized homepage and about page using HTML, Bootstrap, and PHP.
- Built a React web application for a cancer care organization, implementing smooth animations with Framer Motion and styling with Tailwind CSS.
- Improved a gold mining website's performance by 20% through clean code and UI refinements, fixing critical bugs that caused efficiency drops.

Frontend Developer Intern

Actify Business

May 2025 – Present

- Revamped the **Actify Learning Page UI**, integrating animations, smooth transitions, and redesigned sections like Hero, Journey, and Why Choose Us.
- Developed and integrated major sections across **multiple websites** (Actify, Boom Partners, Upendra, Valentine) with **dynamic rendering**, **smooth scrolling**, and animation enhancements.
- Implemented **filter functionality**, **dynamic slugs**, **modals**, and brochure download options using React and Redux Toolkit with API integration.
- Migrated and optimized **homepage and learning page codebases**, improving SEO, responsiveness, and UI/UX across desktop, tablet, and mobile.
- Contributed to **job application system** – developed modals for assessments, API integrations, conditional rendering, and improved branch-level data handling.

Projects

Exoape-Clone (React App) [Live](#)

- Developed a **portfolio website** using React JS, GSAP, Tailwind CSS, and Framer Motion to implement smooth animations and scroll effects.

Movixer (React App) [Live](#)

- Created a **movie browsing app** using Tailwind CSS, Redux, React Player, and the TMDB API to showcase trailers and detailed information on movies, TV shows, and celebrities.

OBYS Agency Clone [Live](#)

- Built a **portfolio website** using GSAP, Locomotive JS, and Sherry JS for smooth animations and DOM manipulation.

Shopify [GitHub: shopify](#)

- Developed a **full-featured web application** using React JS, Tailwind CSS, and Context API with local storage, API integration, and CRUD functionalities, delivering a user-friendly UI and seamless user experience.

Skills

- **Languages & Tools:** HTML5, CSS3, JavaScript,Php, Git, GitHub, Typescript
- **CSS Frameworks:** Tailwind CSS, Bootstrap
- **JavaScript Libraries:** React JS, Three JS, GSAP, Next JS, Redux

Education

- **B.Sc. in Information Technology**
Kirti M. Doongursee College | 2020–2023 | CGPA: 9.3

Certification

Frontend Domination - Sheryians Coding School, **Backend Domination** - Sheriyans Coding School

Summary

Detail-oriented **Frontend Developer** experienced in building responsive and user-friendly web applications. Proficient in **React JS**, modern web technologies, and animation libraries. Strong knowledge of **CSS frameworks**, JavaScript libraries, and integration with APIs. Passionate about learning new technologies and contributing to collaborative teams to create seamless user experiences
